

## A Poor Weak Woman

As she is termed, will endure bravely and patiently agonies which a strong man would give way under. The fact is women are more patient than they ought to be under such troubles.

Every woman ought to know that she may obtain the most experienced medical advice free of charge and in absolute confidence and privacy by writing to the World's Dispensary Medical Association, R. V. Pierce, M. D., President, Buffalo, N. Y. Dr. Pierce has been chief consulting physician of the Invalids' Hotel and Surgical Institute, of Buffalo, N. Y., for many years and has had a wider practical experience in the treatment of women's diseases than any other physician in this country. His medicines are world-famous for their astonishing efficacy.

The most perfect remedy ever devised for weak and delicate women is Dr. Pierce's Favorite Prescription.  
**IT MAKES WEAK WOMEN STRONG.**

### SICK WOMEN WELL.

The many and varied symptoms of woman's peculiar ailments are fully set forth in Plain English in the People's Medical Adviser (1008 pages), a newly revised and up-to-date Edition of which, cloth-bound, will be mailed free on receipt of 31 one-cent stamps to pay cost of mailing only. Address as above.

Interested	To
In	See
Silos—	Us

**We Have A New Idea That Builds A**

Perfect Ensilage Preserver at the Least Cost of Construction and the Most Substantial Wood Building that can be Erected

The farmer knows that the silo utilizes all the feed value of farm crops and makes feeding a matter of two hours light work instead of a day of drudgery hauling feed.

One acre good corn equals 10 tons silage.  
Ten tons silage feeds three head cattle 6 months.  
One acre in silo is worth about 3 in the crib.  
One ton silage occupies 50 cu. ft.  
One ton hay occupies 500 cu. ft.

It will be seen that ten times more space is required for hay than silage and it is not possible to construct even a cheap hay shed, to say nothing of a barn, for the price required to store the same quantity of silage.

The question is what kind of a silo to build. We recommend the Common Sense method of silo construction because:

It is within the means of the smallest feeder, as the height is not fixed and it can be added to from year to year as the herd increases. The walls are substantial and can not collapse. No hoops to tighten. No braces necessary. Will not shrink or buckle. It is so simple to construct that anyone can build it. No door expense. Doors are cut out of the solid section of wall and beveled, making them practical, simple and air tight. This silo is built with 6, 7, 8, 9 or 10 sides and is made of 2x4's—6 ft. laid like brick flatwise, and lined with acid-proof prepared roofing, making it absolutely air tight.

Come in and Investigate. Secure License to build

Misses Carrie and Edith Burton came down from Independence Friday to visit Miss Elizabeth Burton of this city.

Miss Irene Houston returned Saturday to her home in Malta Bend after a several days' visit with friends in this city.

Mrs. J. W. McClure, who has been visiting her parents, Prof. and Mrs. J. C. Shelton, left Saturday for her home in El Paso, Texas.

Dr. J. L. Peak left Saturday for Chicago, where he will join a group of friends from Virginia and from there they will go on a fishing trip to Northern Michigan.

**Panama and Straw hats cleaned, bleached and trimmed. John Wittenberg.**

**The State Normal School, Warrensburg, Missouri.**

This school is better equipped than ever before to meet the need of every class of students.

It offers a Rural School Certificate course to graduates of rural schools, Elective courses for graduates of four year high schools, an Advanced Professional courses for graduates of colleges and universities preparing to be teachers.

It gives excellent opportunities for vocational training. While the purpose is primarily to train teachers, it gives that preparation necessary for life work in any calling.

The expenses are lower than in any other school of equal rank. This is the only normal school in the Middle West that furnishes virtually free text books.

The Fall Quarter begins September 10th.

For catalog or other information, address

President W. J. Hawkins.
